

Implementation Plan Approved

On Thursday, January 12, 2011 the California Coastal Commission unanimously approved the Local Coastal Program Amendment - Implementation Plan (LCPA - IP) for the Harbor Revitalization.

OC Dana Point Harbor is pleased with the outcome and is looking forward to continuing with the conceptual designs for the Revitalization Plan.

Next steps include final certification of the IP by the City of Dana Point and the California Coastal Commission, followed by final design development and preparation of a Coastal Development Permit application for a parking deck, new buildings and enhanced boater service area.

Details of the conceptual design can be found on our website.
