*Foreclosure Risk Score, according to HUD, as of 2009. The "Foreclosure Risk Score" is based on ranking census tracts by two measures: (i) percent of foreclosure problems and (ii) number of foreclosure problems. Each tract receives the higher rank (from 1 to 20) from those two rankings. These data are part of the second round of Neighborhood Stabilization Program Grants. More information on how this score was calculated is available at <http://www.huduser.org/nhsgr/repdata/sec.html>.
